

BACKYARD KIT

ENERGY SAVINGS - HIGHER YIELDS - SUSTAINABLE CHOICE

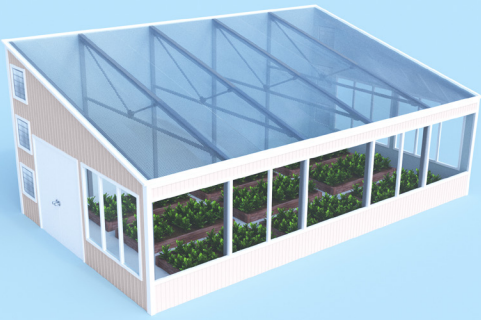

Ceres Backyard Kits™ allow growers to be more self-reliant and sustainable by providing a space to grow food all year long. Using passive solar design and durable building materials, Ceres designs the most energy-efficient greenhouses on the market. Grow naturally in your own backyard paradise with Ceres Greenhouse Solutions.

SPECS

All Greenhouses Include:

- Steel Framing
- Glazing
- Insulated Walls
- Exhaust System
- Doors
- Windows
- Plans

Insulated metal panels are thermally broken, reducing heat loss and creating a more durable and protected environment.

Designed to local wind and snow loads.

Pre-fabricated steel framing allows our kits to be shipped to site and easily constructed.
